AN OLD VESSEL UNDER A NEW NAME .- A wag, being invited to join the new Constitutional Union party of Crittenden, Briggs and Company, replied that could not again take passage on an old crazy vessel, freshly painted, with a new name. "I tried that, said he, "in 1855. I then got on board the Know-Nothing, splendid new vessel, with 'intensely American' colors, promising to its passengers a glorious destination .-But before we had gotten fairly 'under weigh,' I discovered that this new ship was made up of the remnants of all the old vessels that had previously made war upon the good old Constitutional Democratic ship, and that under the direction of Northern pilots, as it was, the destination of the Know-Nothing could not be doubtful. Not wishing to be drawn into the poisoned waters of Northern Abolitionism, I left the 'intensely American' ship, and returned to my place on board of the Old Democratic ship, where I intend to remain." The history of a noted Pacific steamer, after its change of name, he instanced, as illustrative of the moral of his story. The steamer ran under the name of the "George Law," till it was well nigh worn out. Then it assumed the name of " Central America," and upon its second trip thereafter, it went down, with several hundred passengers.

Let us beware, then, said the experienced wag, of these old vessels with new names. Let us alike beware beware of the offorts of their opponents, to entice them fice of Naval Store Inspector, at March Court. on board their vessels. Let them "spot" every flag that bears the inscription " Central America," " intensely American," "Constitutional Union," or any other device of the enemy. The National Democratic party bears the true Constitutional Union flag. Every true to rally under its broad folds .- Richmond Index.

The Politics of Mr. Bates.—The Missouri Demoters of current and political interest:

Since the dissolution of the Whig party, Judge Bates has been identified with no political organization, but, nevertheless, he has not withheld the public expression of his opinion on each of the questions which have been debated since that event. He was a free soil Whig and York, and extended to him facilities for procuring "bar was designated, recognized and proscribed as such in gains as they occur," we feel that we have placed ourselves this State. Were it not for his undisguised anti-slavery opinions, he would in all human probability have been one of the Representatives of Missouri in the U. States Senate for years.

He is wedded to the cause of free labor, both in opin ion and practice. He denies that the Constitution extends slavery over the Territories; he declares that slave-TV shall not be permitted to enter any territory which was free soil when acquired by the United States, or which became free at any period subsequent to its acry on such soil; that the Dred Scott decision merely defines the Constitutional status of the negro, the discursive essays of the Justices which accompanied the rendering of that decision, being, in his opinion, mere leather and no extraordinary consideration, either legally or politi- monthly period with regularity.
